

# Ways We Are Making It Safe to Visit

---

At **LEGOLAND® New York Resort**, our mission is to create truly memorable experiences, and we place the upmost importance on the safety and well being of our guests and employees.

To ensure that you can come play without concern, we have introduced a range of new health and safety measures that reduce the risk associated with COVID-19. These measures are in line with government advice and the requirements of your health authorities.

Some of the measures set out below may be clearly visible to you from the moment you arrive. Others require consideration from guests to help ensure everyone has a fantastic visit.

## Scrub-A-Dub

As with our employees, we politely request that all of our guests uphold the highest possible **hygiene standards** – whether it be when sneezing or coughing, through regular hand washing, and the application of hand sanitizer, as needed.

## Squeaky Clean

Along with new cleaning throughout the parks, **high-frequency touch points** get extra attention throughout the day.

## We Got This

If a person presents symptoms consistent with COVID-19 while on-site, we have new **deep cleaning measures** to enact.

---

We hope these health and safety measures provide you with confidence and eagerness to visit **LEGOLAND® New York Resort**. These are unprecedented times for all communities around the world. And while every effort is being taken to protect the safety and well being of our guests, everyone should inform themselves of the risks, conditions, and personal responsibilities before they visit the park.

Thank you for your understanding as we work to make every visit as fun and safe as possible for everyone.
